MNS BSc Nursing with NEET UG

Military Nursing Service | Selection, NEET syllabus and study plan

1. About MNS (BSc Nursing)

The Military Nursing Service (MNS) BSc Nursing course is a 4-year programme at Armed Forces Medical Services (AFMS) nursing colleges for women. After the course, successful candidates are commissioned as officers in the Military Nursing Service. NEET UG qualification is compulsory.

2. Eligibility

Item	Details
Gender and status	Female, unmarried Indian candidates
NEET	Must qualify NEET UG of the admission year
Qualification	Class 12 with Physics, Chemistry, Biology and English, about 50% aggregate in the first attempt (check the notification)
Age (2026 cycle)	Born between 1 October 2001 and 30 September 2009
Seats (2026 cycle)	220 seats across six AFMS nursing colleges

3. Selection Process

Stage	What happens
1. NEET UG	Qualify NEET UG. Candidates are shortlisted by score.
2. ToGIGE	Test of General Intelligence and General English, computer based.
3. PAT	Psychological Assessment Test, computer based.
4. Interview	Personal interview before a selection panel.
5. Medical	Medical examination as per AFMS standards. Final merit is prepared on combined performance.

4. ToGIGE Preparation

- **General intelligence:** series, analogies, classification, coding-decoding, blood relations, direction sense, Venn diagrams, non-verbal reasoning.
- **General English:** comprehension, grammar, error spotting, vocabulary, fill in the blanks.
- Practice 40 to 50 reasoning questions and one English passage a day, 3 to 4 months before the test.
- Take timed mock sets from the MNS model papers to build speed.

5. Interview Preparation

- Know why you chose nursing and the Armed Forces.
- Learn basics of the Military Nursing Service, AFMS, and its history.
- Follow current affairs, health news and defence news.

- Practice clear, confident answers and good posture.

NEET UG Syllabus (Class 11 and 12 NCERT)

Subject	Class 11	Class 12
Physics (180 marks)	Units and measurements, motion in a straight line, motion in a plane, laws of motion, work-energy-power, rotational motion, gravitation, properties of solids and fluids, thermal properties, thermodynamics, kinetic theory, oscillations, waves	Electrostatics, capacitance, current electricity, moving charges and magnetism, magnetism and matter, EMI, alternating current, EM waves, ray and wave optics, dual nature of matter, atoms, nuclei, semiconductors
Chemistry (180 marks)	Basic concepts, atomic structure, periodic table, chemical bonding, thermodynamics, equilibrium, redox, basic organic chemistry, hydrocarbons	Solutions, electrochemistry, chemical kinetics, p-block, d- and f-block, coordination compounds, haloalkanes and haloarenes, alcohols, phenols and ethers, aldehydes, ketones and acids, amines, biomolecules
Biology (360 marks: Botany 180, Zoology 180)	Diversity of living world, structural organisation in plants and animals, cell structure and function, plant physiology, human physiology	Reproduction, genetics and evolution, biology and human welfare, biotechnology, ecology and environment

Follow the latest NTA information bulletin for the exact chapter list.

NEET UG Exam Pattern

Item	Details
Questions	180 (Physics 45, Chemistry 45, Biology 90)
Marks	720 (+4 for correct, -1 for wrong)
Duration	3 hours 20 minutes, pen-and-paper
Frequency	Once a year, usually in May

NEET Preparation Timetable

For a Class 12 pass-out or repeater: 8 to 10 hours a day.

Time	Activity
5:30-6:30 AM	Exercise or run (needed for the service selection later)
7:00-10:00 AM	Biology: NCERT line by line, diagrams, tables
10:30 AM-1:00 PM	Physics: concepts plus numericals
2:30-5:00 PM	Chemistry: physical, organic, inorganic in rotation
5:30-7:00 PM	MCQ practice from the day's chapters
8:00-9:00 PM	Revision of notes, formulas, reactions
9:00-9:30 PM	Mistake notebook, plan for tomorrow

Saturday: Subject test and weak chapters.
Sunday: Full NEET-pattern mock (3 hrs 20 min), then 3 hours of analysis.

12-Month Plan

Months	Plan
1-5	Complete the entire syllabus once: NCERT Biology first (it carries 360 marks), then Chemistry, then Physics. Chapter tests weekly.
6-8	Second round with high-volume MCQs. Previous year NEET papers (10 years). Start full mocks every week.
9-10	Two mocks a week. Revise NCERT Biology twice, organic reactions, physics formulae.
11-12	Mocks, revision only, and light daily exercise. No new topics in the last 3 weeks.

2-Year Plan (Class 11 and 12 students)

Period	Plan
Class 11	Study each chapter along with school. Do 30 to 50 MCQs per chapter. Monthly test.
Class 12 (to boards)	Finish Class 12 syllabus, revise Class 11. Balance board exams, with NEET practice.
After boards	Full-length mocks, 10 years of papers, and daily revision.

NEET Tips

- NCERT Biology is the base. Read it until you can recall every table and diagram.
- Biology accuracy decides the rank: aim for 320+ out of 360.
- Negative marking is -1, so avoid wild guesses; attempt only when you can remove two options.
- Analyse each mock for at least as long as you took to attempt it.

MNS Add-on (alongside NEET)

- Add 45 minutes daily for ToGIGE (reasoning and English) from about 3 months before the test.
- Read a newspaper daily for English and current affairs.
- Stay fit and practice good health habits, since a medical examination is part of selection.
